Bench and weights •Massage table and Massage mat. MJM The 55 foot Tender Pegasus is a great pairing when run in conjunction with Perseus^3. She is offered separately from Perseus^3. The great thing about having Pegasus with Perseus, is that allows guests to cruise away from Perseus^3 to locations that are not accessible with the big yacht, and still keep the comforts of a large yacht. No getting wet or wind swept. With a enclosed air conditioned pilot house and saloon and an open aft deck guests can enjoy the best of both worlds, in almost any weather conditions. Want to go see another atoll or island that is 20nm away? On Perseus^3 this will take just shy of 2 hours, on Pegasus 35mins. while the mother ship catches up. Great for diving ops with a drop in the water stern platform, for easy access to the water with the gear on. Having the chase boat takes the unpleasant parts of smaller tenders out the equation, especially if there is any rainy weather, or a choppy sea state, as she is fitted with gyroscopic stabilization for the smoothest ride. Pegasus has 2 heads (bathrooms) and a galley to cater for cocktails and canape's if required. Pegasus can take all 12 guests together on long trips or short so no multiple tender runs ashore. She also has a GSM internet WIFI network so if there is any cell phone reception guests can stay connected. Pegasus runs with 2 dedicated crew, and when on outward bound excursions or diving trips the appropriate crew from Perseus^3 join to create a seamless experience from yacht life to the experiences and activities surrounding us. Pegasus Cruising speed: 30Kts Max Speed: 38Kts Range cruising speed: 330NM @ 30Kts, more if lower speeds crew: 2 Heads: yes Pantry / Galley Engines: 3 s Volvo D6, with IPS drives. Generator: Northern lights
